

Event Information and Contacts

Welcome

Welcome to our Perth User Conference 2023. Our industry experts will be showcasing the latest updates to our product suite, announcing new launches and engaging in insightful discussions with the network. We're excited to be joined by our industry partners to showcase how our solutions have supported operations in the region. Looking forward to connecting with you!

Products at the Experience Centre

Immerse yourself in our Experience Centre, where our Products Managers are available to walk you through our solutions in real-time. The centre will be open all day for you to pop-in between sessions. We'll be featuring XECUTE, AMT, ShiftManager, and our newest product, MinePlanner.

TAP TO LEARN MORE

XECUTE

Combining RPMGlobal's proprietary Product Optimiser with a game-inspired, 3-D interface, XECUTE enables planners to build a short-term schedule that's easy to understand and communicate, providing a coherent link between medium-term planning and operational execution.

TAP TO LEARN MORE

AMT

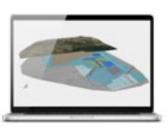

AMT Asset Maintenance Software is the only in-shift maintenance solution that dynamically links to life-cycle costing and strategy. AMT provides accurate life-cycle positions and optimises maintenance strategies using Dynamic Life Cycle Costing (DLCC).

TAP TO LEARN MORE

SHIFTMANAGER

A real-time short term planning and execution solution allowing every task to be planned, measured and reported. It provides transparency for all users as information is available to all departments through one integrated web-based plan.

COMING SOON!

RPM MINEPLANNER

RPM MinePlanner is the next generation of mine scheduling software built on the foundation of RPM's 40+ years of planning and scheduling expertise. It is an evolution of the industry's most used scheduling solution combining all methods and commodities into one single mine planning package and Enterprise backend.

About RPMGlobal

RPMGlobal is the global leader in the digital transformation of mining. We provide data with context, transforming mining operations. Our Enterprise approach, built on open industry standards, delivers the leading digital platform that connects the systems and information and seamlessly, amplifying decision-making across the mining value chain.

RPMGlobal integrates the planning and scheduling, with maintenance and execution, with simulation and costings, on RPMGlobal's Enterprise Planning Framework, the mining industry's only digital platform that delivers insight and control across these core processes.

RPMGlobal's Consulting & Advisory Team advise the global mining industry on their most critical issues and opportunities, from exploration to mine closure. Their deep domain expertise, combined with their culture of innovation, and global footprint, ensures our mining customers continue to lead.

RPMGlobal is the global leader in Enterprise mining software, Consulting & Advisory services and Professional development who operate offices in 20 locations across 13 countries and have worked in over 125 countries.
