RPMGLOBAL

# RPM OPEN NIGHT BRISBANE 2026

20th Aug 2026 | RPMGlobal Brisbane Office

## - EVENT AGENDA -

Live Product Demonstrations

Expert Presentations

Company Updates

# Welcome

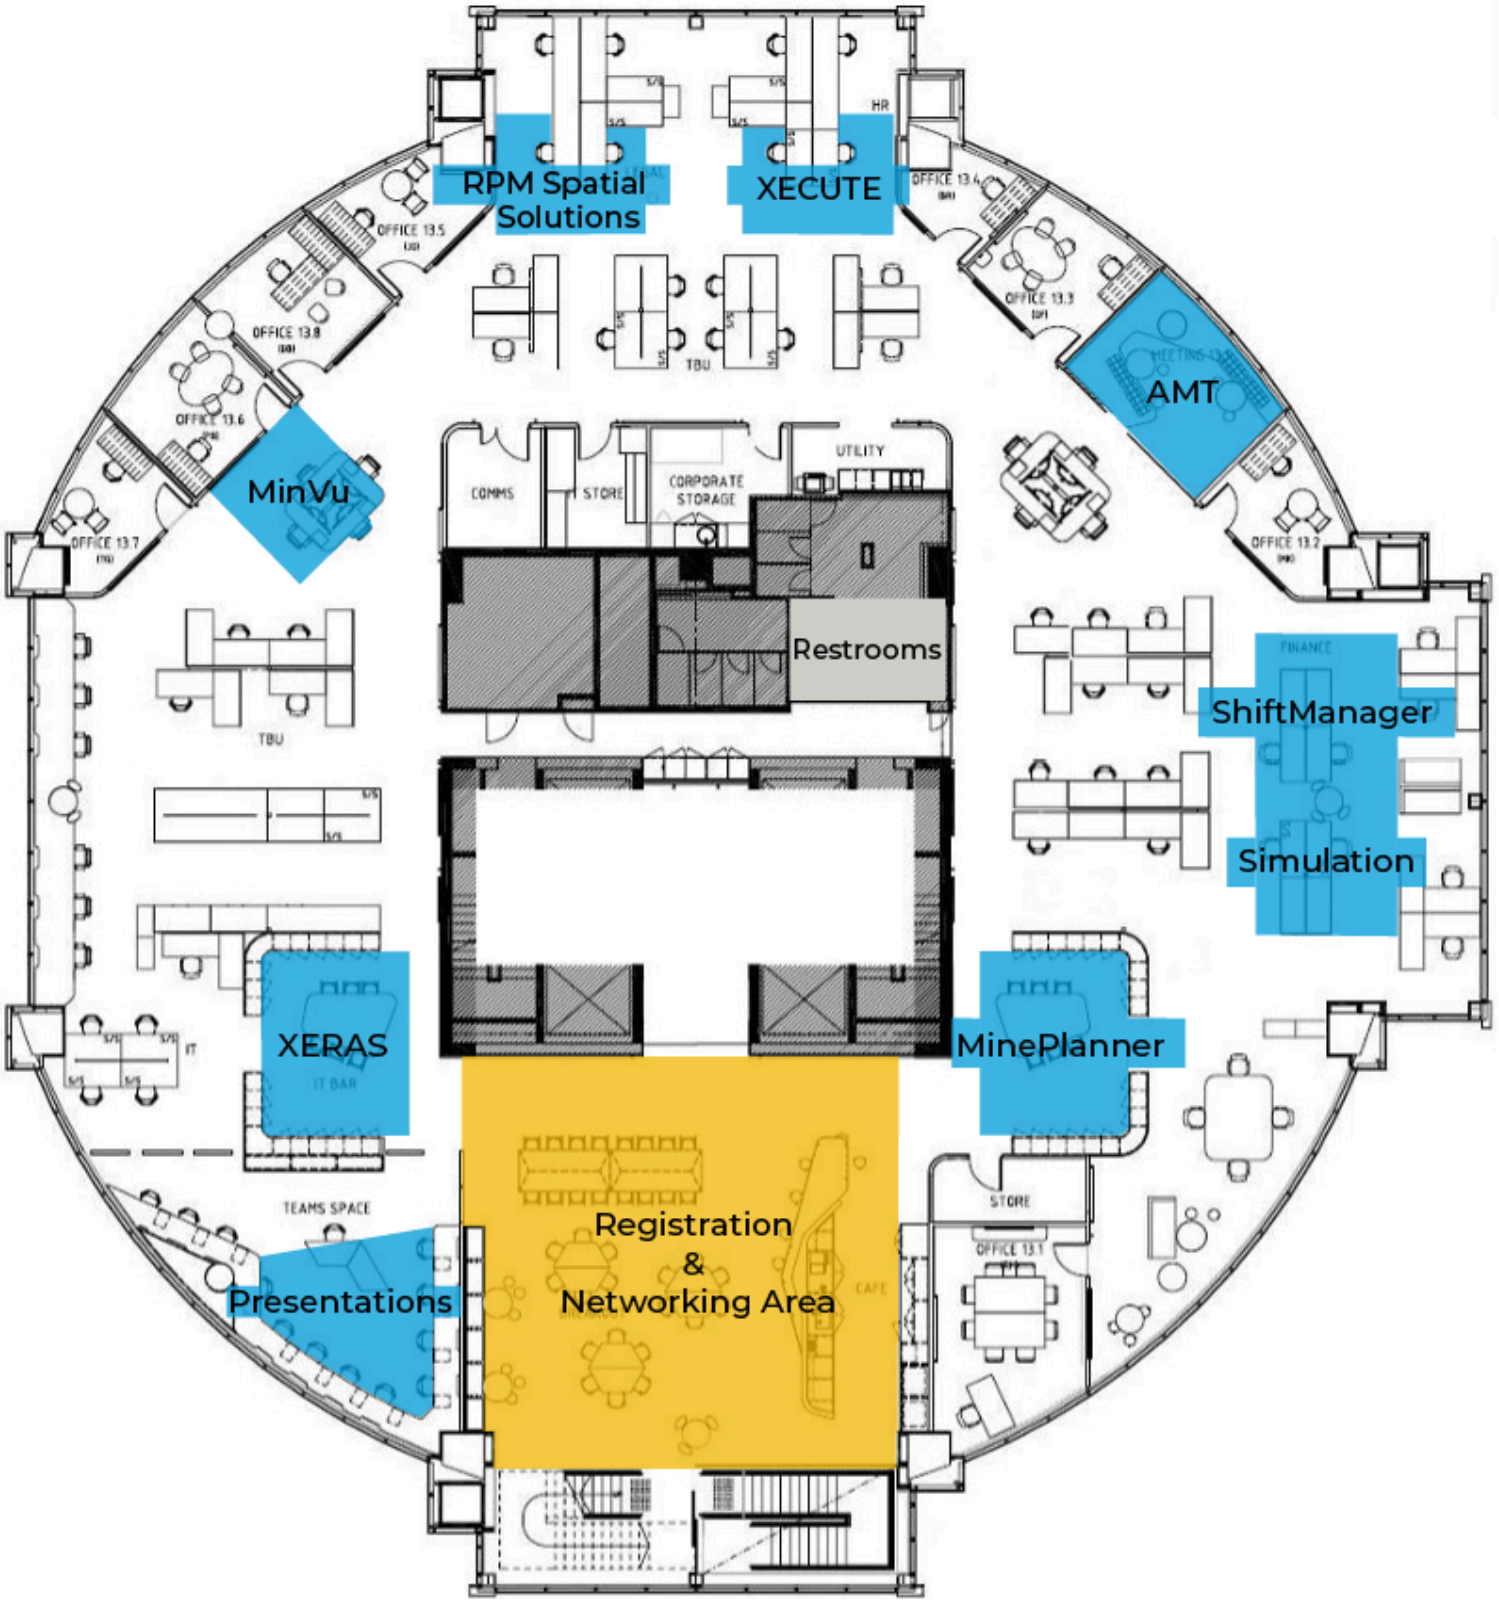

Welcome to **RPMGlobal's Brisbane Open Night**.

We're delighted to have you join us for an evening of innovation, connection, and discovery. As you make your way through our interactive Experience Centre, you'll have the opportunity to explore the latest developments across the RPMGlobal software suite, experience live product presentations, and connect with our product experts and team.

We hope you enjoy the evening, take the opportunity to ask questions, exchange ideas with fellow attendees, and discover how RPMGlobal continues to support the mining industry through practical, innovative solutions.

## Site Map

Join us on Level 14 of the RPMGlobal Brisbane Office. Please follow the map to each Experience Centre.

RPM OPEN NIGHT BRISBANE 2026

## Competitions

### Kahoot!

Think you've been paying attention? Join our Kahoot! quiz at the end of the evening, and test your RPMGlobal knowledge. Use the following to access Kahoot!

# Competitions

## Connect & Create!

This year at Brisbane Open Night, we're bringing connection to life with our Connect & Create activity.

As you explore the **Experience Centre**, piece by piece you'll collect LEGO from each booth - AMT, MinePlanner, Simulation, XECUTE , and XERAS Cloud - and **build your own RPM memento**.

Once you've completed your build, **head to the registration desk** and show an RPM member your creation to be **entered into the Lucky Door Prize** for a YETI Daytrip Bag.

*Terms and Conditions apply.

RPM OPEN NIGHT BRISBANE 2026

## Experience Centres

### RPM Spatial Solution: Spatial Intelligence

Capture, process, and visualise high-resolution site data to improve operational visibility, support informed decision-making, and create a more connected view of mining operations

### AMT: Asset Management Tool

Learn how AMT optimises maintenance and lifecycle strategies, reducing downtime and costs

### XECUTE: Planning & Execution Solution

Learn how XECUTE automates planning and integrates real-time data to optimise short-term mining operations and connect planning to operations.

### XERAS: Financial Modelling Solution

Learn how XERAS streamlines budgets and forecasts, delivering companies an accurate financial position, at any given time.

### MinePlanner: Mine Planning Solution

Learn how MinePlanner's scheduling engine automates tedious processes and optimises mine planning to maximise operational efficiency.

### MinVu: Data Intelligence Solution

Learn how MinVu captures, validates, and normalises data to provide real-time insights and a single source of truth.

### ShiftManager: Shift Management Solution

Learn how ShiftManager provides a single integrated web-based plan to enable planning, measuring, and improving of every task.

### HAULSIM: Haulage Simulation Solution

Evaluate, analyse, and test scenarios to make better operational decisions.

## Agenda

Join us for dedicated product presentations or roam freely through our ‘Experience Centres’, where you’ll have the opportunity to explore the latest innovations in RPM solutions.

| | |
|---|---|
| 5:00pm | ◦ Arrival ◦ |
| 5:15pm | **RPM Corporate Update**<br>Michael Baldwin I Chief Operating Officers<br>Welcome to Brisbane Open Night, hear an update on RPMGlobal's business, recent milestones, and key developments over the past year. |
| 5:30pm | **AMT Insights: Using AI to Improve Your Asset Management Practices**<br>Ian Sedgwick I Senior Solution Executive<br>Explore how AI is transforming asset management and maintenance planning with AMT. Discover the latest product enhancements, see how intelligent insights are improving planning and work management, and learn what's next for the platform. |
| 5:45pm | **MinePlanner Showcase**<br>Alun Phillips I Product Manager<br>Explore the latest developments across MinePlanner and discover new capabilities designed to support smarter, more efficient mine planning. |

## Agenda

| | |
|---|---|
| 6:05pm | 🔎 XERAS Use Case: Budgeting with Barrick<br>Darren Rostron I Product Manager<br>See what it took for one of the world's largest multinational gold miners, Barrick Gold, to roll out XERAS Cloud for financial budgeting across its global operations. |
| 6:25pm | XECUTE Showcase<br>James Kennon I Product Manager<br>Explore the latest enhancements in XECUTE and discover what's coming next.
